MEMO

Resp. 15/12

12 November 1985

I am sending herewith a number of documents and clippings on East Timor. As you will recall we discussed in Paris the problem of circulating material to European groups. This is an attempt to start the process by supplying you with documents which I assume you have not received from other sources.

I have also started receiving memos from Jose Ramiez Horta. He indicates that these are being sent to European groups, and I have therefore not circulated them. Am I right in assuming that you are receiving his memos direct?

I would appreciate a note of acknowledgment indicating that this present mailing is useful to you and that you would like me to do the same in the future.

Carmel

Will you circulate to Jean-Pierre, please?
